It seems that the last thing on earth we need is a brand-new \$4 billion bomb plant. What can we be thinking with all the desperate basic needs people have in a world overflowing with weapons.

Comment No. 1

Issue Code: 16

Comment noted. There is no plan or proposal in the Y-12 SWEIS to build a new bomb plant. While future arms control reductions may change requirements for maintaining the weapons stockpile, DOE is responsible for meeting the current requirements set forth by the President and Congress in the Nuclear Weapons Stockpile Memorandum, which is updated annually. The issue of whether DOE should produce nuclear weapons and alternative uses of the Nation's funds is beyond the scope of the Y-12 SWEIS.
